DILIP SUTHAR

Frontend Developer | React.js Next.js JavaScript Node.js
dilipsutharbca05@gmail.com linkedin.com github.com portfolio

PROFESSIONAL SUMMARY

Frontend Developer with **2.8 years** of hands-on experience building responsive and scalable web applications using React.js, Next.js, Redux, and modern JavaScript (ES6+). Skilled in REST API integration, UI/UX development, and performance optimization. Experienced with real-time applications using WebRTC and Socket.IO, deploying on AWS and Vercel, and working in Agile/Scrum teams. Eager to contribute to AI-driven product development and automation workflows.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend	React.js, Next.js (SSR / SSG / ISR), Redux Toolkit, React Query (TanStack Query)
Backend	Node.js, Express.js, REST APIs, JWT, Middleware
UI & Styling	Tailwind CSS, Material-UI (MUI), Chakra UI, Responsive Design, CSS Modules
Real-Time	WebRTC, WebSockets, Socket.IO
Data Fetching	React Query, Axios, Fetch API, SWR, REST API Integration
Dev Tools	Git, GitHub, Postman, Vite, Webpack, Husky, ESLint, Prettier
Cloud & Deploy	Vercel, AWS (S3 / EC2), CI/CD Pipelines, Environment Config
Databases	MongoDB, SQL (basic)

PROFESSIONAL EXPERIENCE

Frontend Developer (React.js & Next.js) | Ananta Services Pvt. Ltd. *Jan 2023 Aug 2025*

Designed and developed scalable, responsive web applications. Collaborated with backend engineers to integrate APIs, built reusable UI components, and deployed projects on AWS.

Project 1 quickhirez.com (React.js)

- Architected and built a **component library of 20+ reusable UI components** (forms, modals, tables, cards) used consistently across the entire application, reducing development time for new features
- Designed and implemented a **role-based access control (RBAC) system** with four distinct user roles Admin, Super Admin, Candidate, and Panelist each with tailored views and permissions
- Built a **calendar-driven interview scheduler** supporting multi-slot creation, slot booking by candidates, real-time slot availability updates, and live interview status tracking
- Owned end-to-end **REST API integration** defined request/response contracts with backend team, handled async data flow, error states, and loading skeletons for a smooth user experience
- Developed **admin dashboards** with real-time panels for monitoring active, scheduled, and completed interviews, giving operations teams full visibility into the interview pipeline
- Configured and deployed the frontend on **AWS (EC2 + S3)** with a custom server setup; managed build pipelines ensuring zero-downtime releases
- Set up **Husky + lint-staged** pre-commit hooks enforcing ESLint and Prettier rules across the team, eliminating formatting inconsistencies in code reviews

Project 2 live.quickhirez (React.js + WebRTC)

- Independently developed a real-time live interview platform for panelists and candidates

- Integrated WebRTC SDK for real-time video and audio communication between users
- Built controls for mute/unmute, camera on/off, and fullscreen mode with responsive design
- Designed feedback and scenario modules for structured interview evaluation
- Ensured smooth, consistent performance across all devices and browsers

Tech Stack: React.js, Next.js, JavaScript ES6+, TypeScript, Material-UI, Tailwind CSS, WebRTC, REST APIs, Node.js, AWS, Husky, Git/GitHub

PERSONAL PROJECTS

Talk Real-Time Chat Application *https://talk-client.vercel.app*

- Developed a secure real-time chat application using React.js, Socket.IO, Node.js, Express.js, and MongoDB
- Implemented one-to-one and group messaging with WebSockets for seamless communication
- Integrated image/file upload with preview and storage to enhance user interaction
- Added end-to-end encryption for private chats to ensure secure communication
- Designed responsive UI with message history, online/offline status, and typing indicators
- Built authentication and authorization using JWT for secure user access

Portfolio Website *https://madebydilip.vercel.app*

- Developed and deployed a personal portfolio using React.js and Tailwind CSS with a mobile-first approach
- Showcases projects, technical skills, and certifications in a clean, professional, and responsive layout
- Implemented reusable components and optimized for fast load times and smooth navigation

EDUCATION

MCA Parul University *Sept 2021 May 2023 | GPA: 7.9/10*

BCA KJIT Institute Of Engineering And Technology *Sept 2018 May 2021 | GPA: 8.0/10*

CERTIFICATIONS

- **Full-Stack Web Developer Udemy (2024)** | React.js, Node.js, Express.js, MongoDB, REST APIs, Git, Vercel

LANGUAGES

English (Professional) Hindi (Fluent) Gujarati (Native)
